Welcome to Passage House Dental Care

We are a committed team of dentists and dental nurses dedicated to providing high quality dental care to our patients. We aim to look after your teeth in a relaxed and friendly atmosphere.

It is our practice policy to promote dental health at all times. Therefore we recommend regular check-ups. These will also help keep down the cost of your treatment.

NHS Dental treatment includes all treatment necessary to secure and maintain your oral health.

We provide a full range of private treatment options including cosmetic treatment, large white fillings in back teeth, tooth whitening, adult orthodontics and other treatment not available under the NHS.

It is our practice policy to give patients full information about the cost of their dental work. A written estimate and treatment plan is always available for patients.

We try to make payment as straightforward as possible. Our normal policy is that payment is on the day of treatment and definitely by completion of the treatment plan.

If you are unable to keep your appointment please let us know as soon as possible so that we can give the appointment to someone else. If you miss more than one appointment and give less than 24 hours' notice, we may not be able to complete your treatment or offer you NHS treatment in the future

We aim to make your experience at the practice as pleasurable as possible. The treatment that we offer is tailored to the specific needs and requirements of each individual. One fix does not suit all but we feel we can provide modern dentistry for all
